Parnassus Navigator v1.6.5.3 (24 Oct 2024) for Delphi 12 Athens Retail

2026-04-08 09:34:56

Navigating Delphi code can be frustrating and time-consuming, but **Parnassus Navigator** simplifies it all. With a single shortcut, you can jump directly to any part of your code—methods, classes, constructors, or even unit sections—without scrolling or searching manually. Simply press Ctrl+G, type what you're looking for, and let Navigator take you there instantly. It's designed to save time, keep your hands on the keyboard, and maintain your coding flow.

Parnassus Navigator also provides a powerful minimap—a compact, scrollable, syntax-highlighted preview of your entire unit. Located next to your editor's scrollbar, the minimap gives you an overview of your code structure, previews any section with a hover, and allows quick navigation with a click or drag. Whether you need to scan your code or jump directly to a specific line, the minimap makes it effortless.
