Twig & Olive: Heritage Matte: The Heritage Matte Collection by Twig Olive Photography is striking and is full of gorgeous neutral brown tones. It is the collection for you if you're looking for stunning (yet subtle) tones and warmth. To use Lightroom or ACR, the Heritage Matte Collection is the ideal choice for photographers who desire soft, silky smooth, and distinctive tones for their photos. Similar to The Fernweh North and South, this set provides warmth, brightness, and neutral tones. As our other presets, these are best when images are taken in open shades or the golden hour.

This set contains:

B+W Louis | Artie | Blanche | Blythe | Fritz | Gertrude | Henrick | Lorraine | Mabel | Maude | Millie | Prudence | Sula | Wilbur | Wilma

This product is only compatible with Adobe Lightroom, Lightroom CC, Lightroom Classic CC, and Adobe Camera Raw (ACR). It is not compatible with Adobe Photoshop or Adobe Photoshop Elements.

The most important thing to remember when working with presets is that they're designed to improve your workflow by providing the same starting point. It's doubtful that you will have one-click edits unless you can precisely control every shot's light and white balance. Thus, it's likely that you'll alter the white balance and exposure for each image.

Presets only make up a tiny portion of the final image production. The time of day, the gearing choice lenses, angles, and depth of field all significantly impact your photographs more than any preset. Take a look at these suggestions if you're not happy with the result of your editing.
