Using a 3D model to help draw characters: In this class, you will be taught to utilize an easy-to-use 3D application (Easy Pose) to create a 3D model and draw anatomy. I'll create the character, create a screen capture, and then transfer this screen capture to two drawing programs (Procreate or Clip Studio Paint). This course will be demonstrated using an Ipad, and however, this can be used on a regular computer.
