Description

- This class will guide you through the various steps to follow when creating a mystique effect for Houdini.
- It is recommended that you have a basic understanding of Houdini prior to taking this course.
- I will share the hip file, and there aren't any additional resources that you can download (only mixamo animation, which you can get free anim online) All you require is Houdini software.
- If you've got any concerns you have, feel free to ask me questions and I'll try to help in any way I can.
- This course will use Houdini 19. You should not have any problems in following the lecture videos using older versions.

The course is broken down into its components:

- An introduction to quaternion and matrix with easy examples
- Find solutions to problems that we have encountered in the previous lessons.
- Apply the same method to an object that is static.
- Try to recreate similar effects on animating objects.

I will show an easy and simple approach to making an FX shot similar to this. I will also show a number of smaller examples as I introduce a brand new idea.

If you've been using Houdini for a while it should not be a problem. issues following this course.

We won't go over the rendering aspect since this course is focused on creating the illusion of mystery However, you are welcome to ask questions about rendering.

Who is this course to be used for:

- Anyone who wants to know the art of creating visual effects right from scratch.
- Anyone who wants to learn about the basics of programming with vex.
- Anyone who wants to access more sophisticated content.
