55MEDIA – 55m Advanced Luts 2.2 for Panasonic Standard Edition

2025-02-10 17:09:43　　label 我要反馈　　下载页面

We are pleased to introduce the brand new and improved 55M Advanced LUTS.

This brand new 2.0 version is able to provide both precise and pleasing colors, with the optimal amount of contrast to the footage you already have and even projects that are yet to be shot on many Panasonic cameras that shoot V-Log as well as HLG.

Gfx plugin details of 55MEDIA – 55m Advanced Luts 2.2 for Panasonic Standard Edition

The product is a great useful tool, for more information about this post you can click on the home page link in the sidebar. To search for similar products to 55MEDIA – 55m Advanced Luts 2.2 for Panasonic Standard Edition,

With this updated version that was redesigned from scratch, users do not have to contend with skin tones that look magenta and lush greens or dull-looking images. With the latest 55M Advanced Luts system, your work will be better than ever.
