#### Aescripts Stipple 1.0.3 (Win):

Create temporally coherent image stippling patterns driven by footage using a physics simulation.

Stippling, an artistic technique using small dots for detailed shading, offers cleaner and more visually appealing results than dithering.

Stipple ensures temporal coherence, with dots moving predictably between frames, enhancing video and animated footage.

#### Key Features:

- Footage-driven point movement
- Map dot size and color to velocity
- Use custom sprites for unique effects
- Stretch dots to create dynamic trails

Experience fun and creativity with Stipple in After Effects!
