**Henry Tieu – Preset Pack II Presets:** Welcome to HD Presets Pack 2, a unique collection crafted by Henry's Diary (Henry Tieu Photography) for Adobe Lightroom and Camera Raw. This pack is a departure from the conventional warm presets, as Henry ventured into diverse lighting scenarios, presenting four distinct presets that challenge and inspire.

### Presets Included:

- **HD - Olympic:** Inspired by Olympic National Park, this preset introduces an excellent highlight for a vintage look while maintaining warm skin, ideal for foggy photos.
- **HD - Rattlesnake:** Named after Rattlesnake Mountain, this preset offers a dramatic black-and-white effect with a moody yet vibrant touch.
- **HD - Ruby:** Taking its name from Ruby Beach, this versatile preset warms the entire image, preserves blue tones, and stays true to the original color palette.
- **HD - Whidbey:** Named after Whidbey Island, this preset is perfect for indoor sessions, creating a moody atmosphere while maintaining warm and natural skin tones.

### Important Notes:

- **Charity Contribution:** A quarter of the proceeds from this preset pack support various charities, emphasizing the ethos of giving back.
- **Usage Reminder:** The creators encourage users to buy presets rather than trade them, emphasizing the intention behind these tools to streamline work and maintain consistency.
- **Photography Reminder:** The creators emphasize that while presets enhance editing processes, they don't replace the need for fundamental photography skills, including light, exposure, composition, and camera settings.

The package includes detailed instructions for installing HD Presets on Lightroom Desktop and Mobile, allowing flexibility across multiple devices. Additionally, Henry provides insightful tips based on his photography experience, such as shooting in RAW, slight underexposure, and preferred white balance settings.

Feel free to explore and elevate your photography with these meticulously crafted presets!

- **Charitable Contribution:** A noteworthy aspect is that 25% of the proceeds go to various charities, including the Humane Society, Human Rights Campaign, Charity Water, St. Jude Children's Research Hospital, and more.
- **Artistic Challenge:** These presets were born out of artistic challenges faced by Henry in different lighting situations, resulting in a diverse yet cohesive editing style and portfolio.
- **Versatility:** Despite their differences, all presets offer cohesive editing, providing moody tones without darkening photos excessively. They ensure warm and natural-looking skin tones.
