create stunning images that have amazing looks. The set comes with 10 color options. Unviewed eyes can be opened.

This action was tested on Photoshop English Version.

Software supported version: CS4, CS5, CS5.5, CS6, CC2015.5, CC2017, CC2018, CC2019, CC2020 English Version.

Most important instruction:

- (1) To get a great result, you must first expand your canvas area. Select your background image, then use crop tools to expand the three sides. For more details follow the PDF Help file. Next, resize your images to 3000x2000px at dpi 300.
- (2) Next, open your photo and create a new layer. Next, choose a brush to paint your image. Next, close the "paint layer eye" and continue selecting "paint". Click on the action play button.
- (3) You will see a stop message when you run this action. Now, set the foreground to #000000. Next, select the Brush Tool (B), and pick some Brushes from your collection. Brush the area mostly for erasing or adding more details. Set the foreground to #000000 to erase and #ffffff to add more details. You can use other brushes. Next, click the action play button. Follow the stop message instructions carefully.
