Syncovery Premium v12.0.7.31 for Win x64

2026-06-24 15:06:13

Syncovery Premium is a highly versatile synchronization, copying, moving, and backup tool that empowers users to manage their files according to their unique preferences. With support for multiple platforms, including Windows, macOS, Linux, FreeBSD, and NAS systems, Syncovery facilitates seamless copying between local drives, network shares, mobile devices via MTP, and various protocols such as FTP, SFTP, or WebDAV.

The premium version boasts comprehensive cloud support, enabling users to synchronize data with various cloud storage providers, including Google Drive, Box, Amazon S3, Azure, DropBox, OneDrive, and many others. Users can create and manage multiple jobs, executing them manually with Sync Preview or automating them with the scheduler. Syncovery excels in handling complex tasks, offering features like real-time sync, compression, encryption, email notifications, and extensibility through PascalScript.

introduces an Easy Start Wizard Mode for creating profiles effortlessly. Syncovery stands out with features like extremely fast scanning, block-level copying to save bandwidth, real-time synchronization, SmartTracking for detecting file movements and conflicts and versioning for maintaining multiple file versions. Advanced users can utilize the Advanced Mode for full control, allowing them to create, edit, and run profiles with various modes such as Attended, Unattended, Run in Background, and Background with Preview. **Syncovery Premium** is a powerful solution for users seeking advanced file management capabilities and efficient synchronization across diverse platforms.

Key Features of **Syncovery Premium** :

1. Supports Windows, macOS, Linux, FreeBSD, and NAS systems.
2. Enables copying between local drives, network shares, and mobile devices via MTP.
