PRODUCT DESCRIPTION

If you are averse to the orange hues in your skin these are the ideal skin tone for you! A de-saturated orange with a perfect lighting balance and gorgeous Tan colors. Peanut presets are about creating a dark and Instagram-worthy style. This collection is stunningly dark and eerie with subtle hints of Peanut tones - White, Bright, Brown as well as Tan shades.

- You can save time. Edit your photos with quality on the go. Upload the image to your smartphone, apply the edit and the photo is ready to go live on Instagram.
- Absolute freedom. The presets can be completely customized. Once you have applied your preset you may still apply your own modifications to increase exposure, reduce highlights, or even add whites. Anything is feasible.
- You can take Your Instagram up a notch. More reach. More engagement. More of everything.
- You can make Instagram's algorithm fall in love with you. Instagram is a visual platform. It is important to grab the attention of users with your pictures first.
