Adriatique Mystery (TALE OF US & MATHAME REMIX): The track is a deconstructed Ableton Remake version of Mystery, composed initially by Adriatique and remixed with Tale of us & Machame. It was released on Afterlife Records. The track has a lot to know about transitions, drums, beat-making, the Lead Synth, Sub Basses Vocals, Song Structure, and many more modern techno music production Elements.

The Template was created to work with Ableton Live 10.1, using only the Xfer Serum v1.214 (or higher) VST plugins. In addition, it uses Stock FX and Stock Instruments. Techno Style samples for beginners and the whole arrangement Beat are included. Thoroughly mixed and mastered and ready to download and begin playing it!

The project includes The Midi and Serum Presets folders in conjunction with other DAW such as Fl Studio, Logic Pro, and more!

Recommendations: If you encounter any issues with your CPU, we're running the 3rd generation Intel i7 at around 10 percent. Ensure you use Ableton's freeze function and resampling methods when you're experiencing issues with the application.
