Estrattoredati Social Phone Extractor v7.1.0

2026-04-08 11:27:56

Estrattoredati Social Phone Extractor is an intelligent and trusted solution that can allow you to easily scrape all the phone numbers, including WhatsApp numbers, on the most frequent social media sites such as Facebook, Instagram, LinkedIn, Twitter/X, and TikTok. This software will work whether you are a business owner, a marketer, or any user who requires contact information, and all that it takes is a short period to make the process very easy.

The tool will automate the tedious search through profiles and posts by the use of special algorithms in harvesting valid phone numbers. Searches can be narrowed down using a keyword (e.g., Restaurant or Hotel), location, country code, and even options to use either generic numbers or WhatsApp-only contacts. It only takes one time to configure, and all you have to do is submit, and the job is left to the software.

Once a scan is completed, the results are displayed at the bottom of the program and can be saved to be used again. The WhatsApp numbers can also be utilized with bulk messaging tools such as WhatSender to send messages to potential customers directly. **Estrattoredati Social Phone Extractor** is a convenient tool that can assist any individual in the correct form in all marketing, networking, and outreach.

Key Features of **Estrattoredati Social Phone Extractor**:

1. **Multi-Platform Support** – Extract phone numbers from Facebook, Instagram, LinkedIn, Twitter/X, TikTok, or even run a general Google search.
2. **Keyword & Location Filtering** – Target the exact audience you need by entering specific industries (e.g., “Hotel”) and regions.
3. **Country Code Selection** – Choose the correct phone prefix for any country, such as +1 for the USA, +91 for India, or +49 for Germany.
4. **Phone Type Options** – Decide whether to capture all numbers or only WhatsApp numbers for direct messaging campaigns.
5. **Automated Search & Extraction** – Advanced algorithms ensure accurate, fast results without manual effort.
6. **Easy Export & Use** – View results instantly and save them for later use in marketing tools or outreach campaigns.
