Abstract Images in Cinema 4D R26 By Davide Frusteri: In this class, you'll be taught the fundamentals of X-Particles, the incredible plugin for Cinema 4D. Utilize any 3D model you want and create organic streaks with this powerful tool.

Let's create gorgeous abstract images or videos.

You'll learn the following:

- The Emitter
- Modifiers: xpFollowSurface - xpTurbulence - xpSpeed - xpAvoid -
- Generators: X-Trail
- Tags: xpCollider
- Materials: xpMaterial and Hair Material
- Settings for rendering Image export and Multipass
- Compositing: in After Effects [Optional]

This course is designed for beginner to intermediate animators and will require a basic understanding of Cinema 4D, and I will walk you through the entire procedure.

Software is required: Cinema 4D and 3rd third-party plugin X-Particles 4.
