What is Midjourney EVO SERIES: Create and Sell Stunning POSTER With AI?

SkillShare is an online learning platform where instructors offer a wide range of courses on various topics, including design, art, and technology. It is focused on using artificial intelligence and the Midjourney V5 program to create unique poster designs that can be sold online to start a business. Here's a breakdown of what this class seems to cover:

- **AI in Design:** The class emphasizes how artificial intelligence is transforming various aspects of creative work and highlights the potential for launching an online business that sells AI-generated images.
- **Focus on Poster Design:** The class's primary focus is creating unique poster designs that can be monetized through online platforms.
- **Midjourney V5:** The class highlights the capabilities of Midjourney V5, which is described as a text-to-image program. It is presented as an effective tool for creating stunning images using prompts and online resources for print-on-demand items like t-shirts, stickers, and posters.
- **Instructor:** The instructor, Riccardo, is described as a freelance multimedia designer with a passion for technology. They will guide students through using Midjourney V5 to create and sell poster designs.
- **Course Content:** The class covers various aspects of using Midjourney V5, including how to use the program, the differences between V4 and V5, finding intriguing subjects for posters, working with prompts, styles, and niches, optimizing image quality for high-resolution printing, adding text to artwork using Figma (a design tool), and setting up an online shop through RedBubble to sell your designs.

Overall, it seems like this SkillShare class is geared toward individuals interested in harnessing the power of AI and tools like Midjourney V5 to create and sell visually appealing poster designs online. Students can expect to learn practical skills and strategies for launching their own online business in this creative field.
