Halcyon has a variety of tones and new profiles to enhance your imagery. Eclipse profiles are great for golden hour. They give you a flattering frame gradient and an extra boost of warmth. Three new Solis brushes tools are available to transform lighting into dramatic, emotive effects.

The Halcyon Set contains 1 BW and 7 Color Presets, 2 Creative Profiles, 3 S *Olis Brush Tools*.

Please Note: This set requires Adobe Lightroom Subscriptions: LR Classic CC, LR CC, and/or LR CC, and/or Adobe Photoshop CR (v13+). After purchase, please refer to the included Installation Guide to install the presets for Lightroom 7.5.

For the future, we must all be united. The Archipelago community was founded in the Pacific Northwest. It has since spread around the globe. Recognizing that growth comes with responsibility, we decided to return a portion to non-profits dedicated to protecting our planet and fighting for equality and social & race justice.
