# TMS FNC AppTools v1.0.6.1 (15 Apr 2026) for Delphi & CB XE7-12 Athens Full Source

2026-05-05 11:36:23

presents a comprehensive suite of components designed for effective desktop application management within VCL and FMX frameworks. Among its notable offerings, the TTMSFNCAppUpdate component streamlines the update process by facilitating automatic internet-based updates for desktop applications, ensuring a seamless and up-to-date user experience. The TTMSFNCAppLock component enhances application security by allowing the locking of sensitive information and concealing it from view when the application is not in active use.

Additionally, the TTMSFNCAppFormPersist component contributes to a consistent user interface by automatically preserving the last screen position and size of desktop application windows, providing users with a personalized and efficient working environment.

## Key Features of **TMS FNC AppTools** :

1. TTMSFNCAppUpdate: Enables automatic internet-based updates for desktop applications.
2. TTMSFNCAppLock: Enhances security by allowing the locking and hiding of sensitive information.
3. TTMSFNCAppFormPersist: Automatically preserves desktop application windows' last screen position and size.
