Metronic v9.4.7 for HTML, VueJS, React, Django, Blazor, Flask, Angular, ASP.Net Core 6 & Laravel Admin Dashboard Theme

2026-04-19 10:04:21

Metronic is the world's leading dashboard solution since 2013, offering a singular core framework built atop Bootstrap 5. This framework provides the foundation for creating highly customized projects of any scale. **Metronic** integrates 12 frameworks into one scalable solution, empowering developers to deliver limitless projects tailored to their specific needs.

For HTML-based projects, **Metronic** harnesses the power of Bootstrap 5 as its backbone, extending it further to adhere to a unique design system. It incorporates essential tools like NPM for package management, Gulp for task automation, and Webpack for module bundling, ensuring streamlined development workflows. With prepackaged solutions and CSS utility classes, **Metronic** simplifies coding without requiring advanced design skills, enabling seamless HTML-based project development.

In Vue and React environments, **Metronic** provides custom-tailored solutions based on Vue 3 and React 18, respectively, integrating popular libraries like Vue Router, Vuelidate, React Query, and React Router. These versions leverage TypeScript for enhanced code integrity and Bootstrap 5 for a consistent design language. Additionally, offers specialized versions for frameworks like Django, Blazor, Flask, Angular, ASP.NET Core, and Laravel, each incorporating Bootstrap 5 and essential tools specific to the respective platforms. With its comprehensive suite of features and adaptable framework, **Metronic** empowers developers to build robust, visually appealing applications across diverse technology stacks.

Key Features of **Metronic** :

1. A singular core framework built atop Bootstrap 5
2. Integration of 12 frameworks into one scalable solution
3. Utilization of Bootstrap 5 as the backbone for the HTML version
4. Inclusion of NPM for package management
5. Integration of Gulp for task automation
6. Use of Webpack for module bundling
7. Simplified coding without advanced design skills
8. Custom-tailored solutions for Vue and React environments
9. Incorporation of TypeScript for enhanced code integrity
10. Integration of popular libraries like Vue Router, Vuelidate, React Query, and React Router
