What is Instagram story templates?

Instagram story templates are pre-designed graphics or layouts that users can customize and share on their Instagram stories. These templates often include placeholders for text, images, or other elements and are commonly used for various purposes, such as sharing personal updates, promoting products or services, running contests or challenges, and engaging with followers.

Instagram story templates can be a fun and creative way to connect with your audience and add variety to your stories. They are particularly useful for maintaining a consistent and visually appealing Instagram presence. You can also find pre-made templates online or from other users if you prefer not to design your own.
