ARCHIPELAGO QUEST - EARTHY STYLE BUNDLE - VOL 01 includes four preset packs that modify an image by giving it warm and earthy undertones. These presets are tailored to stylize photographs in a mesmeric and organic fashion and are inspired by the natural desert terracotta and golden-hour sunlight. Quest 25 Fable, Quest 05 Gemtones, Quest 26 ZIA, and Quest 30 Autumnal are the bundled presets that add substance to photographs. There is also an explanation regarding the Wiremo integration by Squarespace, which says that review visibility is limited when in edit mode, which means one will have to use incognito or another browser for verification.
