Matita Written Font Family: Matita Written marks the earliest release from a more significant type family developed between 2005 and 2019 with the idea of writing in mind. It's a solid sans serif that comes in two weights, as well as dotted instructional versions, with alternative glyphs based on various writing styles. It is ideal for teaching, teaching material, or simply typography. It has handwritten type families that are not childish and serve various purposes.
