Steelray Project Analyzer v7.22.1

2026-04-08 08:12:06

Steelray Project Analyzer simplifies the process of creating, maintaining, and delivering high-quality project schedules. With its intuitive interface, you can evaluate schedule quality and performance in minutes, producing clear and actionable insights. The software analyzes schedules against project management best practices, internal standards, and government guidelines, supporting Microsoft Project .mpp files, Project Server, and Project Online.

Featuring an innovative scorecard and scorestrip, **Steelray Project Analyzer** provides visual indicators such as green, yellow, and red to highlight results, making it easy to interpret findings at a glance. The software comes equipped with a comprehensive report gallery containing pre-configured reports for schedule validation, government standard checks, comparison analysis, performance evaluation, and customizable reporting options.

integrates DCMA DECM Metrics and 14-Point assessment, ensuring a trustworthy critical path for your schedule, with results explained in a user-friendly format. Additionally, the software includes The Coach, a built-in encyclopedia that offers deeper insights into analysis results and serves as a valuable reference or learning tool. With seamless office integration, Project Analyzer allows for effortless report generation in Microsoft Excel, Word, and PowerPoint formats, facilitating smooth workflow and collaboration.

Key Features of **Steelray Project Analyzer** :

1. Simplifies creation, maintenance, and delivery of high-quality project schedules
2. Evaluates schedule quality and performance quickly, providing actionable insights
3. Analyzes schedules against project management best practices and government guidelines
4. Supports Microsoft Project .mpp files, Project Server, and Project Online
