Have you ever thought of creating your own anime-inspired comic?

Have you ever had an idea in your head that was inspired by your favorite cartoons, and wished you could experience the story in reality but pushed it away because you thought it would be too hard of a goal?

I'd like to inform you this: it's definitely not! With the advancement of digital drawing techniques creating comics is never so easy! I'd like to show you how to create and publish your own anime-inspired webtoon by taking you through each step of the process of planning to the finalization and publishing your work making use of the most advanced techniques that increase your productivity and allowing you to create a top-quality comics without the need for an entire team.

Gfx plugin details of Class101 – Pluvias – Make Your Dream Story Real Drawing Anime-Style Webtoons from Planning to Publishing

The product is in **Tutorial category** , for more information about this post you can click on the home page link in the sidebar.

It is a course for dreamers of writing

This class is designed for creators with dreams, who have their own tales and worlds of their own characters and wish to begin the journey towards putting all of it together into the form of a vibrant webtoon comic to convey their long-awaited story.

Make your very own Webtoon webtoon chapter!

No matter if you're an intermediate or a beginner or an advanced, and regardless of whether you know how to draw backgrounds or not but you'll be able to use your drawing abilities, as well as resources and models in 3D to design interesting scenarios for the characters you create.

When you finish this class, you'll be able to design your speech bubbles and panels and draw your characters in the space of a room, express their emotions in a way that is expressive as well, and include lighting and effects that reflect the mood of the scene which will allow you to create an entire webtoon page that you have created!
