**DJI Mavic 1 & 2 Lightroom Presets:** This collection includes 10 meticulously designed Lightroom presets that were specifically designed for aerial photography of landscapes using cameras like the DJI Mavic Pro & Mavic 2 Pro and are suitable for images from any season. Each of the presets was designed from DNG images captured with Mavic Pro. Mavic Pro and you can expect images that are vibrant and natural shades. Particular attention was given to the blue hues of the ocean, as well as the forest, with its nearly endless green varieties.

Have a look at the before and after images to understand the versatility of this software. Each preset was designed to suit various types of landscapes to help you choose the best one for your photograph, just look at the titles of the presets in Lightroom and look at the preview on the navigation tool.

Please note that since every morning in nature can be different There is no something like a 'one-click preset'. It is necessary to tweak the settings that are basic especially the Color-Temperature, Exposure as well as the blacks along with the Whites under the "Basic" panel. Thus, each preset is intended to be a starting point.

- All presets work with RAW and JPG images.
- Supported by Adobe Lightroom 4, 5 6 as well as Classic CC on Mac and PC (not compatible with the Lightroom mobile apps)
- Instant Download
