# Modern Paint Photoshop Action – GraphicRiver 33619864 (ABR, PAT, ATN)

2025-02-10 16:46:02　　label 我要反馈　　下载页面

Modern Paint Photoshop Action lets you create modern and vibrant colors for your photo. There are a variety of color options. A layer to draw "brush" is created automatically following the play. Save your time and do fantastic work! For the best results, we recommend high-resolution images. The best range is between 3500 to 3500 pixels. It is also possible to experiment with the color of your photo. Once the process is complete you'll have an organized and well-structured image that includes multiple layers, folders, and settings that will enhance the final outcome.

The action only works with the English Version of Photoshop! It was tested using Photoshop CS6 and the versions following: Photoshop CS6, CC2015, the CC2017, CC2018, and CC2019 versions, and CCC2020.
