WHAT MAKES THIS PACK SO DIFFERENT?

You Might Be Wondering, what makes this Film Matte Pack so Different from the rest of the packs on the market? Well, that is a fantastic question.

And the answer is, many additional movies packs out there simply Offer you a janky png mask of imitation movie. This not only degrades your Footage but destroys the whole appearance of your edit.

This package consists of direct overscan of 8mm and 16mm movie Which was pre-keyed and exported within an Alpha .MOV file. This means you can Drag and drop these matters into your favorite editing applications and You're all set to go!
