# HAVOK: DISTORTION PACK

2025-02-10 16:46:02   label 我要反馈   下载页面

Mind-Bending Effects to Enhance the PERFECTION OF your designs!

All of them are built with 4K resolution.

Many hours of research were put into this package, and it focuses on the best methods to transform images or type into something utterly beautiful.

Have been using these layers for my own designs and it's been fun for sure. This added a whole new level of complexity and elegance to my style and image treatment.

I hope you enjoy playing with these effects like I have!

WHAT YOU GET

- Twelve PSD Displacement Maps.
- A contact sheet that lists all effects.
- A PDF tutorial.
