

IconFontsImageList VCL & FMX v3.4 (04 Apr 2025) Retail

2025-04-15 16:16:21

Four advanced components to simplify use of Icon Fonts as images and ImageList: TIconFontImage, TIconFontsImageCollection, TIconFontsVirtualImageList, TIconFontsImageList (for VCL and FMX). Full support for High-DPI-compatible apps. Optimized rendering with GDI+.

Components that make it easier to use "Icon fonts": resize colors, color, opacity, and much more... With complete support for High-DPI applications—optimized rendering with GDI+.

IconFontsImageList VCL and FMXGreat Features:

- TIconFontsImageCollection is collection of "Icon Fonts" for Delphi to provide a centralized list of images for IconFontsVirtualImageList (only for VCL).
- TIconFontsVirtualImageList is a special "virtual" ImageList for Delphi linked to an IconFontsImageCollection (only for VCL) to simplify use of "Font Icons" (resize, color and more...).
- TIconFontImage extends the Image component in Delphi (VCL+FMX) for Delphi (VCL+FMX) to display every icon Font directly or as part of an IconFontsImageList that includes all the features (stretch and color, as well as opacity, and much more). ...).
- TIconFontsImageList is an expanded ImageList compatible with Delphi (VCL+FMX) to facilitate the usage of Icon Fonts (resize color, size, and more). ...). Only use it for applications using only one form.
