Software Support Version CS3, Cs5, CS6 & CC+ Version

Graphic River Publish

This action is for anyone with no experience. Amazing performance in just one click This set can be used for any type of cover design, including book, magazine, advertisement, poster, photographer, and personal graphic or designer. FEATURES Arranged (all the layers are automatically arranged within a Group Folder). Make changes (most actions have been created using Adjustments layers which allows you to modify the values in your own manner)

Everybody should know that picture is an important aspect. Without a good picture, you can't see the whole thing. Please provide quality pictures for a better view.

Double-click the zip file. It will install in Photoshop. Now go to the window menu >> Click the action option ..... this will show the action plate in your front.. choose action and then play action

How to set Photoshop up to work with actions

1. You must ensure that you are using the English edition of Photoshop. Each action was designed and optimized for use with the English version. You can switch the language to English using this method.
2. Use the RGB Mode with 8 Bits color. These settings can be checked by going to Image->Mode.
