Sublime Merge v2.0 Build 2124 Dev Win & macOS

2026-04-13 22:33:45

is your ultimate tool for streamlining code reviews and Git management. Its intuitive interface boasts side-by-side diffs, syntax highlighting, and character diffs, enabling you to breeze through code changes with precision. The line-by-line staging feature allows for granular control over commits, ensuring you only include what's necessary. Plus, its powerful search functionality lets you quickly pinpoint specific commits, making navigation effortless. With **Sublime Merge**, you're not just getting a Git client; you're getting a comprehensive solution that seamlessly integrates with Git, offering a real-time view of the commands you're executing.

Customization is key with **Sublime Merge**. Make the layout to your preferences and use your creativity with its robust theming system. Whether it's managing submodules, integrating with the command line, or incorporating Git Flow, **Sublime Merge** adapts to your workflow seamlessly. With over 40 supported languages for syntax highlighting and the ability to split hunks into multiple changes, Sublime Merge empowers you to tackle code reviews with unparalleled efficiency. It's more than just a Git client; it's your indispensable companion for navigating the complexities of version control.

Key Features of **Sublime Merge** :

1. Side by Side Diffs
2. Syntax Highlighting
3. Character Diffs
4. Line By Line Staging
5. Find-as-you-type Search
6. Git Command Visibility
7. Custom Layout
8. Powerful Theming System
9. Commit Editing
10. Blame and File History
11. Submodule Management
12. Command Line Integration
13. Git Flow Integration

所有软件资源 100%安全 已检测 无病毒 无篡改
