TMS FNC Chart v4.0.0.1 (31 Mar 2026) for Delphi CB XE7-D12 Athens Full Source

2026-04-29 16:18:41

TMS FNC Chart is a highly customizable Delphi & C++ Builder chart component tailored for business, statistical, financial, and scientific data. Compatible with VCL, FMX, LCL, and WEB core apps, it supports various area chart types with auto-calculated Y-axis and X-axis values. The component offers fully customizable mathematical and statistical bar charts, including an optional stacked mode.

With seamless compatibility for design time and runtime high DPI, **TMS FNC Chart** provides an IDE theme-enabled editor for flexibility. It excels in displaying financial data, supporting multi-point series and trend lines for technical analysis. The component allows the creation, linking, and display of complex mathematical expressions through the TMS Analytics & Physics Pack.

facilitates easy data import from various file types and offers customizable data binding. Supporting multiple series, optional separate or combined auto range for the x- and y-axis, and a wide range of chart types, it ensures dynamic and visually appealing data representation. Additional features include XY line, XY scatter chart types, customizable value formatting, background grid configuration, series markers with bitmap support, annotations, and anti-aliasing.

Key Features of **TMS FNC Chart** :

1. Highly customizable for business, statistical, financial, and scientific data
2. Compatible with Delphi & C++ Builder, VCL, FMX, LCL, and WEB core apps
3. Various area chart types with auto-calculated Y-axis and X-axis values
4. Fully customizable mathematical and statistical bar charts with optional stacked mode
5. Pie/donut charts with variable slice configurations and optional legend
6. Design time and runtime high DPI support with an IDE theme-enabled editor
7. Display of financial data with multi-point series and trend lines for technical analysis
8. Support for complex mathematical expressions through TMS Analytics & Physics Pack
9. Seamless data import from various file types
10. Easy, flexible, and fully customizable data binding

Delphi Components VCL

11. Multiple series support with optional separate or combined auto range for x- and y-axis
12. Wide range of chart types: bar, grouped bar, area, pie, donut, spider, line, digital line, OHLC, CandleStick, Boxplot, XY line, XY scatter
13. Formatting of values in various types (numbers, floating point numbers, date time)
14. Customizable X-axis and Y-axis with optional custom formatting for each series and multiple-position support
15. Configurable background grid
16. Series markers with bitmap and custom drawing support
17. Series labels with formatting support and optional stacked mode
18. Annotations for each series point
19. Optional 3D drawing mode
20. High number of events for further customization
21. Anti-aliasing & native canvas support
22. Opacity support (FMX only)
