Toolroom Mark Knight Vol. 6 Trademark Series (WAV): Toolroom proudly presents this year's annual Trademark Series, curated by DJ and producer Mark Knight. In its sixth consecutive year, Mark openly shares his most up-to-date sound library, extensively used for this year's commercial productions and remixes.

Tried and tested with Mark's seal of approval, it's now fully available for use in your own productions. Mark Knight and his sample collections need no introduction. His sample packs have become the go-to resource for many House and Tech House producers worldwide. As an artist, Mark remains celebrated and respected, consistently pushing boundaries and blurring the lines between label boss, producer, and DJ.

This year marks the 20th anniversary of Toolroom, featuring a series of chart-topping releases, global tours, and Mark's biggest Trademark Series to date. When you delve into the pack, you'll discover the usual collection of drag-and-drop loops and one-shots, offering an instant gateway to high-quality sounding productions. These include a comprehensive drum collection broken down into every desirable stem, along with basslines, music loops, EFX, drum fills, risers, and an extensive vocal library. Vol. 6 also includes an extensive array of presets for SERUM.
