### How do I install the presets?

After you've bought the presets, installing them is straightforward:

- Within the Lightroom Develop section, select the plus icon next to the Presets panel.
- Click "Import"
- Locate the downloaded presets on the machine you're using and then import them. They have located the Presets panel in "User Presets. "User Presets"

## GUIDE FOR LIGHTROOM CLASSIC (2018 AND NEWER)

### STEP 1

Open Lightroom Classic and ensure you're in the Develop module, if not (Press-D on your keyboard). On the left panel, you'll see a Presets section click the " + " then Import Presets..

### STEP 2

Go to the location where you unzipped the Upshift Presets Pack and select Upshift Pack (Lightroom Classic).zip and then click Import.

You can find your newly imported presets under User Presets under the Presets section

## GUIDE FOR LIGHTROOM

### STEP 1

Open Lightroom. On the tool panel on the right, you'll see the Edit button. Click this button to show the edit panel. In the edit panel, click the Presets button which will show the Presets panel. Click the " ... " then Import Presets...

### STEP 2

Go to the location where you unzipped the Upshift Presets Pack and select Upshift Pack (Lightroom Classic).zip and then click Import.
