平面设计　　Software

Renga Professional:

Renga Professional is a robust Building Information Modeling (BIM) software designed for Architecture, Engineering, and Construction (AEC) specialists. Tailored for medium to large-scale design companies, development corporations, and small design teams, it integrates architectural, structural, and MEP (Mechanical, Electrical, and Plumbing) design into a single platform. The software provides tools for creating and refining 3D models, generating detailed drawings, and ensuring efficient collaboration among project team members. Renga Professional streamlines workflows by supporting multiple file formats and seamless integration with structural analysis and third-party software, enabling faster decision-making and minimizing errors.

"Renga Professional" Sample:

3D Modeling & Visualization

- Design and modify conceptual prototypes with detailed interior and exterior in 3D.
- Support for textures to enhance rendering and photorealistic illustrations.

Collaboration Tools

- Real-time collaboration for project teams to work simultaneously on a single digital model.
- Provides up-to-date project data, reducing design approval time and minimizing errors.

Architectural Design

- Intuitive tools for space planning, floor plans, and material estimation.
- Automates drawing documentation to identify and resolve design issues.

Structural Engineering Integration

- Includes tools for refining nodes, joints, and structural elements.
- Seamless data transfer to structural analysis software via IFC and other formats.

MEP System Design

- Efficient tools for water supply, sewerage, heating, ventilation, and electrical systems.
- Integration with ready-to-use BIM catalogs and exclusive STDL scripting for custom equipment categories.

- **Import:** DWG, DXF, PDF, 3DS, OBJ, COLLADA, FBX, STL, ACIS, STEP, Parasolid, IGES, JT, and more.
- **Export:** IFC, DWG, DXF, PDF, OXPS, OBJ, COLLADA, STL, C3D, ACIS, STEP, Parasolid, IGES, JT, RTB, CSV.

- IFC support for model sharing and third-party integration.
- Automates preparation for expert evaluation and customer presentations.
- Includes collaboration features exclusive to Renga Professional for integrated team workflows.
