How To Illustrate A Frog-Themed Sticker Sheet In Procreate: In this course, I will guide you through how to make a frog-themed sticker sheet using the Procreate App for the Apple device.

I'll take you through the steps I used to create these stickers that I created for the design I created for my Etsy business, Crafting By The Pound.

- What materials will I need
- The way I came up with the idea for the label sheet
- Sketching out an outline layer
- Making a color palette, while making a finalized style for each illustration
- The sticker sheet should be organized to be used in the final production
- Final thoughts and wrapping up the project in preparation for the next stage of the process of manufacturing
