DITidy v6.6.0 (16 Sep 2021) for Delphi 6-11 Alexandria

2024-12-18 23:01:45

DITidy is building onto the lab tidy library but demands no DLLs no other external documents. All code has been compiled into the program's executable.

DITidy is a embedded HTML parser and pretty printer for Delphi (Embarcadero / / CodeGear / Borland). It reads HTML and XML into a DOM tree, checks for and fixes mistakes, and writes legitimate HTML.

DITidy Great Features:

- HTML, XHTML and XML parser.
- Parses from file, memory, and via customizable interfaces.
- Reads Documents in Latin1, UTF-8, Windows, and other encodings.
- Reports a wide range of HTML and XHTML problems during parsing.
- Easy to use API to iterate and examine document nodes and attributes.
- Generates cleaned-up and well-formatted HTML and XHTML with customizable layout styles.
- Reads and writes configuration files compatible with HTML Tidy.
- Built-in English language descriptions of library options.
- Completely self-contained in a smart-linking, single file source code unit.
