xlCompiler v3.12.132 (November 2024)

2026-05-10 11:18:04

is a powerful tool that converts your Excel files into standalone Windows applications, giving you full control over your models and protecting your intellectual property. Transforming your Excel formulas and VBA code into binary format ensures no one can access or reverse-engineer your work. This is perfect for distributing your Excel models securely, with all the functionality intact, but without revealing your proprietary algorithms.

The tool also boosts the performance of your Excel files, making calculations up to five times faster than when running directly in Excel. You can include all your Excel features, such as charts, shapes, conditional formatting, and even VBA code, and have them work seamlessly in the new application. **xlCompiler** even lets you add a custom Ribbon interface for a polished and professional user experience.

In addition to protecting your formulas and code, **xlCompiler** provides several security options, including activation key protection, an End User License Agreement (EULA), and code signing certificates to ensure browsers and antivirus software trust your app. Whether you're creating financial models, analytics tools, or other spreadsheet-based solutions, **xlCompiler** allows you to package and protect your work efficiently.

Key Features of **xlCompiler** :

1. **Formula Protection:** Excel formulas are converted to binary format, making them inaccessible and secure from unauthorized access.
2. **Faster Performance:** The Spreadsheet Core Engine speeds up the execution of formulas and VBA functions, up to five times faster than in Excel.
3. **Full Excel Functionality:** Supports worksheet formulas, VBA functions/forms, charts, shapes, conditional formatting, and more, ensuring your app mirrors Excel's capabilities.
4. **Custom Ribbon Interface:** Easily create a professional Ribbon UI in your application with VBA code.
5. **Data Validation & Cell Comments:** Keep data validation rules and cell comments from Excel to ensure users can interact with your model as intended.

所有软件资源 100%安全 已检测 无病毒 无篡改
