Storytelling retouching in Photoshop: I'll teach you how to use the tips and tricks to aid you in taking your pictures to the highest level and making them appear like an old-fashioned illustration! My tutorials are simple to follow, and essential basic Photoshop skills are enough to view my videos. I am passionate about making the editing process as simple as possible, yet with a WOW final product.

I do make use of extra plugins in a few of my videos. So you'll also learn to use Exposure and Nik collections and improve your workflow.

In this class, we will retouch pinup style/vintage style and other pictures of children. We will work with blend and masking techniques. I'll discuss all the secrets of my editing with you, which will allow you to do your work and discover your style in photography.

The course's structure is based on years of teaching experience with students online. I am the instructor for many Educational Resources for Photographers; the best of our photos were used as cover images of international magazines with a good reputation.

And according to the Baby Photo Award, we are in the 1st spot among the top children's photographers in Austria.
