#### Ted Forbes – Kodakified:

16 Presets for Simulation of Kodak Lightroom as well as Capture One!

You can achieve the traditional Kodak look in any camera by applying presets and colors profiles that have been carefully designed to reflect the classic look of films in colors.

There are six Kodachrome historical simulations, in addition to 10 modern C41 and E6 Kodak simulations. Make your images reflect life with the classic shades of film stock using the complete potential and range of dynamics that your camera can offer.
