

vBulletin 5 Connect v5.5.2 Nulled

2024-12-18 23:01:45

vBulletin Connect offers unparalleled capabilities to build community websites. This software allows for easier site management, increased content creation, and more engaging content discovery.

Site Builder makes it easy to create and manage websites. Drag-and-drop site configuration, customizable page templates, and in-line page editing make page layout easy. You can choose from a variety of design themes.

Modular content modules that can be customized allowing for enhanced content discovery and encourage users to visit deeper sites. The vBulletin search engine has been significantly re-architected to improve its quality and facilitate content discovery.

The improved social functionality includes new profiles and groups, comments, integrated messaging hubs, social content curation, real-time updates, and many other features.

Users can quickly upload photos and videos to the new interface, which allows them to expand their content on vBulletin websites. The media can then be used to enhance the site's content. Profiles of users allow for an engaging aggregation of all media they have posted.

Smartphone users will be able to stay longer and return to the integrated mobile-optimized version.
