

CNHphotography – Vibrant Preset Pack

The pack contains 4 of my most frequently used ACR and Lightroom preset. They offer very vivid tones while keeping the original skin tone. The names of the presets are inspired by the colors the presets generate.

Remember that all the photos were shot with different lighting and setups therefore the presets would most likely require adjustments (exposure and white balance) to match your image.

The presets work only in conjunction with Lightroom Desktop or ACR They are not compatible with Lightroom mobile devices.
