Expect to hear small mechanics to massive motors, repairing equipment along with personal care equipment. This collection will include sophisticated and distinctive modern sound effects for your work.

"Machinery" allows you to play with your creativity. It has all the components needed to make your custom Sci-Fi FX robotic and futuristic sound by starting from scratch. It includes a range of different recordings of washing machines, digital and analog cameras, and many more that are just waiting to be found.

The audio tracks were recorded using Rode NT1, Rode NT1, Rode NT4 NTG-8, Rode NT1, Audio Technica BP4025, Zoom F8 Tascam DR-44WL, and precisely labeled and categorized so that it is easy for users to access them and can be easily combined with other sources.

"Machinery" is a great choice for all Science Fiction, mystery or fantasy-related projects. It's also suitable for a variety of media productions, such as advertising and game projects that require high-end robotic and machine sounds. If your project requires massive machine sounds, gigantic robots, or a nitty-gritty detail that you're not able to find in the first place, then 'Machinery' can save the day.
