Tools Applications

provides proxy security options, and lists import and export functions for increased control. **NinjaTok** stands out because of its intuitive interface and first-class customer assistance, which helps users achieve TikTok growth successfully.

Key Features of **NinjaTok** :

1. **Auto-Follow & Unfollow** – Follow or unfollow targeted users based on specific filters, such as those who don't follow back.
2. **Auto-Like & Superlike** – Like videos in bulk or engage deeply with specific users by liking multiple posts.
3. **Auto-Comment** – Post pre-set or AI-generated comments to increase interactions.
4. **Advanced Targeting & Filters** – Find the right audience by filtering users and videos based on followers, likes, keywords, and more.
5. **Real-Time Monitoring** – Automatically engage with new videos and users as they appear.
6. **Scheduled Video Uploads** – Plan and automate your video posting for consistent content.
7. **Growth Tracking & Analytics** – View detailed charts and reports to track progress.
8. **Account Protection** – Avoid detection with random delays, breaks, and safe engagement strategies.
9. **Proxy Support** – Use proxies for added security and anonymity.
10. **Blacklist/Whitelist** – Prevent unwanted interactions by setting up custom lists.
11. **Import/Export Data** – Easily manage user lists for following, liking, or processing externally.
12. **Multiple Accounts** – Automate actions across multiple TikTok profiles simultaneously.
