How do you create shadows and light in Lightroom?

you can use Meridian Presets – Anni Graham – Lumine.

Where can I download the product?

After subscription, You can download it for free from here.

The Lumine Presets is a collection of shadows and light that take your photographs to the highest level. Inspired by the beautiful shadows that you can observe in your living room from the trees outside, you would like to see them during every shooting. The light adds energy and attention to your subjects, and shadows add emotional depth. They can be used indoors as well as outdoors, and in conjunction with one another, and can be easily changed from size to shape intensities using the use of LLF Lightroom Plug-in. The presets can transform any image into something that is unique and exciting.
