

Diving Log v6.0.35 Multilingual

2025-12-02 14:07:57

Diving Log offers a comprehensive scuba logbook solution for efficient dive management. Users can seamlessly import dive log data from nearly every dive computer through manufacturer software or direct downloads. The software supports data export in various formats, synchronization with iOS and Android devices, and online presentation through web uploads.

With a powerful integrated report designer, users can create personalized logbook printouts and share their designs with fellow users. The software provides detailed statistics, charts, and a robust search and filter function for in-depth analysis of dive data. Beyond dive records, users can organize equipment, buddies, photos, and dive sites. Diving Log also enables divers to share their experiences through online logbooks and explore dive sites via the map viewer before vacation.

The versatility of extends to importing dive computer data, exporting to formats like PDF and Google Earth, and designing custom logbook pages. It offers a comprehensive suite of features for divers to efficiently manage, analyze, and share their underwater experiences.
