is a streamlined database management tool designed specifically for SQLite. With support for multiple SQLite versions and SQLCipher, as well as extensions, it offers essential features like autocompletion, syntax highlighting, and customizable themes. Its minimalist interface prioritizes efficiency without unnecessary clutter, while also providing essential functionalities such as SQL formatting and the ability to export and import data in various formats like CSV, JSON, and XML.

Key Features of Native SQLite Manager :

- 1. Support for multiple versions of SQLite
- 2. Support for SQLCipher
- 3. SQLite extensions support
- 4. Autocompletion and syntax highlighting
- 5. Customizable themes
- 6. SQL formatter
- 7. Export data to CSV, JSON, XML
- 8. Import data from CSV
- 9. Minimalist interface without unnecessary additions
