Kellerman Software Unused Stored Procedures v1.20 (19 Oct 2014) Retail

2024-12-18 23:03:15

It is time to clean the user database and maybe with the help of the user application in the years old has been modified and it is now unbelievable. Maybe the new application is capable of using the NHibernate as well as the user old application which uses the stored procedure. Maybe the new CIO like the Oracle and the user does not need to convert all the SQL Server stored as well as the procedures over to it. Anyways in any case the unused as well as the stored procedure has to go, and the user has to find out the stored procedure which can be removed with the help of the unused stored procedure application easily and flexibility. It has the ability to be purchased separately and the product is also considered to be included in the gold suite. The subscribers and the members of the gold suite are capable of receiving the update of the product as well as the new product as a part of the annual subscription for free. It is described to be the best value which is in the industry itself. It has the ability to search different source code directories simultaneously and the utilization of the unused stored procedure program can be easy for the user and the developer as it is very user-friendly.
