The Sunny Sea-18 presets for Lightroom by Photos & Presets offer a versatile collection of 18 presets tailored for various photography genres, such as portraits, landscapes, and skin tones, with a focus on holiday photos taken at the seashore.

How to use presets to edit portrait or skin tone images in Lightroom?

You can use "Sunny Sea-18 presets Lr lifestyle By Photos & Presets" to edit your images.

Each preset is unique, adjusting to different subjects and lighting conditions while maintaining a cohesive style. Included in the downloadable Zip Archive are 18 lrtemplate presets compatible with Lightroom (5+), along with 15 DNG files showcasing color corrections and photos, including brushes for additional editing flexibility.

The DNG files serve as visual aids for understanding the creator's color correction methodology and can be used for "Before" or "After" comparisons.

While designed primarily for RAW files, these presets can also be applied to JPGs. Users are advised to use WinRar or similar software for extraction, and Lightroom is required for preset applications as they are not compatible with Photoshop.
