Cut Out Photo Effect - 280187040:

Cut Out Photo Effect is a photo effect tool that allows users to create high-quality, customized images quickly using Photoshop.

The tool features Smart Object layers for easy editing and versatility.

Users can replace placeholder images with their graphics by double-clicking the Smart Object layer, deleting the placeholder, adding their own graphics, and saving the changes.

Additionally, adjustment features are available for fine-tuning the composition.

The package includes two PSD files with resolutions of 4500x3000 px and 3000x4500 px, both at 300 dpi.
