gSyncing v1.1.73 Multilingual

2026-04-08 11:00:38

With **gSyncing**, maintaining your Outlook and Google accounts in partnership is simple. This tool will keep Google Calendar, Contacts, or Tasks lined up with your Outlook, and you will never get an update out of date, or duplicate the same information again. It operates in the background automatically, saving your time and trouble.

Be an ordinary person who has many calendars to handle or a person in charge of a company that has multiple accounts; **gSyncing** can accommodate this variance. It facilitates synchronization of various Google calendars as well as Outlook profiles, ensuring that it best fits individuals who operate across both platforms on a day-to-day basis.

You do not have to be a techie to operate **gSyncing**. Its sheer usability allows you to install it within a couple of minutes and never bother you again about it. When it is up and running, your data will be synced, keeping you on track and productive, with no manual labour required.

Key Features of **gSyncing**:

1. **Two-Way Synchronization:** Keeps your Outlook and Google Calendar, Contacts, and Tasks updated in both directions, so any change you make in one place appears in the other.
2. **Multiple Profile Support:** Allows syncing between several Outlook profiles and multiple Google accounts or calendars.
3. **User-Friendly Interface:** Designed for non-technical users with a simple setup, easy configuration, and minimal effort.
4. **Real-Time Updates:** Automatically syncs your data in the background without needing to press any buttons.
5. **Flexible Sync Settings:** Customize what you want to sync (e.g., only calendar or contacts) and set how often syncing happens.
6. **No Duplicates:** Built-in safeguards prevent duplicate entries when syncing between systems.
