A COLLABORATION WITH BEBA VOWELS

Instead of Simply creating presets Motivated by any single Motif, Beba dialed inside her power moves and attracted a nonstop package of perfectly Choreographed presets centre point. Musing more true to life colors, the Beba Vowels Bundle concentrates on maintaining skin tones warm and particulars undamaged while Boosting shadows to provide themes added dimension. Clean, soft, and filled with Understated intensity that will pull light via a muddy day, this package is Reminiscent of a relaxing day in the shore.

Gfx plugin details of Beba Vowels Presets (Lightroom XMP) From G-Presets

To search for similar products to Beba Vowels Presets (Lightroom XMP) From G-Presets,

Beba Vowels Presets includes 7 colour presets, two BW Presets, a Mood Enhancer and two habit Creative Profile's (please see below For compatibility).

Before and after pictures below demonstrate how every preset manipulates A picture with equal white balance and exposure.

These presets will use versions of Lightroom 4 and Previously, however, so as to utilize the habit Creative Plugins you may need one Of these apps: Lightroom Classic CC (version 7.3 or later), Lightroom CC (version 1.3 or later), or Adobe Camera Raw (version 10.3 or later).

Please be aware these presets are made for RAW images Only and it's encouraged to use them together with the habit Creative Profile. For Best results, upgrade your editing software to satisfy the required specifications.

All these are Desktop Presets(not Mobile Presets).

What's a CREATIVE PROFILE?

A CREATIVE PROFILE IS A CUSTOM SETTING THAT CAN BE INDIVIDUALLY APPLIED OVER AN ALREADY EDITED IMAGE. THE COOLEST PART IS THAT As These PROFILES DON'T Impact ANY OF THE SLIDERS IN LIGHTROOM, YOU CAN CRANK THEIR INTENSITY UP OR DOWN AS YOU PLEASE WITH NO CONSEQUENCE TO YOUR EDIT. TO ACHIEVE BEBA'S SOFT WARMTH WITH THIS PARTICULAR PROFILE, I USED A COMBINATION OF TONE CURVES, AND COLOR ADJUSTMENT LAYERS. ALL IN, THIS FEATURE IS A REMARKABLY EFFECTIVE TOOL THAT TAKES AN IMAGE FROM WOW TO WHOA IN A HURRY.

HOW TO INSTALL

- FOR LIGHTROOM CLASSIC CC (VERSION 7.3 OR LATER), LIGHTROOM CC (VERSION 1.3 OR LATER), OR ADOBE CAMERA RAW (VERSION 10.3 OR LATER) OR WITHOUT CREATIVE PROFILES LIGHTROOM 5, 5, 6, LIGHTROOM CLASSIC CC 7.2 AND BELOW
 1. After you have downloaded your presets DO NOT Publish the Document
 2. Open Lightroom and proceed into the Create Module with a picture
 3. Click the icon at the Preset Panel. Select"Publish Presets"
 4. Navigate to the downloaded presets zip file
 5. Click "Import"
